

# NL PURE

8x42, 10x42, 12x42

## ONE WITH NATURE

1

### +VIEW. ONE WITH THE MOMENT.

The largest-ever field of view with almost indiscernible edges allows you to experience nature as never before - and immerse yourself in the moment.

2

### +DETAIL. ONE WITH PERFECTION.

SWAROVISION technology guarantees stunning images with incredible color fidelity, making it easy to identify every single detail.

3

### +SHAPE. ONE WITH YOU.

The NL Pure has been designed to fit perfectly into your hand. Its revolutionary ergonomic shape guarantees relaxed viewing, even for prolonged periods.

4

### +COMFORT. OBSERVE WITH EFFORTLESS EASE.

Thanks to the forehead rest, you can comfortably observe for hours.

# LARGEST FIELD OF VIEW

The largest **field of view** to date (477 ft @ 1,000 yds) depending on the model - revolutionizes the viewing experience. Thanks to this extraordinarily wide field of view with barely perceptible edges, the NL Pure provides a very natural observation experience that allows you to immerse yourself in what you see. It is available in 8x42, 10x42, and 12x42 variations. This large field of view combined with the compact design of the binoculars and superb ergonomics takes the viewing experience to the next level. This has been achieved through continuous improvements to the optical system, including designing a space-saving mechanical concept. The highest standards of quality are achieved through consistent adherence to minimum manufacturing tolerances.

# NEW MECHANICAL CONCEPT

Keeping friction to a minimum was the key when working on the focusing mechanism. Precision threads and optimum surfaces all play their part in ensuring easy mobility. A new mechanical system has been designed to position the focusing mechanism in the binocular's revolutionary ergonomic housing. NL binoculars also use the proven magnesium technology to ensure maximum ruggedness combined with lightweight.

# SWAROVISION ULTIMATE OPTICAL PERFORMANCE

### UNCOMPROMISING IMAGE DEFINITION

Field flattener lenses deliver an almost flat, completely distortion-free image - right up to the edges.

### ULTIMATE OPTICAL PERFORMANCE

Pin-sharp contours, high-contrast and true-to-life images: you can make out every single detail for quick and easy identification.

### MAXIMUM COLOR FIDELITY

Innovative lens coatings provide excellent color rendering with high light transmission.

# FRP FOREHEAD REST

Thanks to the **FRP forehead rest** (available as an accessory) the NL Pure guarantees you stay comfortable, even when observing for long periods. The forehead rest can be adjusted so that your view is lined up perfectly. Since there is such a significant increase in stability using the FRP forehead rest with the NL Pure, in most instances the user will not need a tripod for viewing over long periods of time especially with the new 12X model.

## FSB FUNCTIONAL SIDEBAG

The NL Pure binoculars are stored on their side in the new **FSB functional sidebag**, so they are at your fingertips and ready to use as soon as you reach into the bag.

## UCS UNIVERSAL COMFORT STRAP

The **UCS universal comfort strap** prevents fatigue thanks to its ergonomic design and wide neck section. Whatever the weather, your comfort is ensured through the use of performance materials such as mesh, which regulates moisture and provides excellent ventilation. The UCS universal comfort strap is a classic webbing strap that can be quickly and intuitively adjusted to the length you need via a quick-lock clasp on each side. As with the EL series, it is fitted to the binoculars via a bayonet catch. Strap loop connectors (supplied as standard) also make it possible to attach normal straps to the bayonet catch.

## SUPPLIED WITH

- UCS universal comfort strap
- FSB functional sidebag
- Eyepiece and objective lens cover
- Soap & brush kit
- Microfiber cloth
- Strap loop connector
- Cover for steel rings (when detaching the objective lens cover)

## ACCESSORIES

- FRP forehead rest NL Pure
- WES winged eyecup set
- BGP bino guard pro
- BSP bino suspender pro
- FSSP floating shoulder strap pro
- UTAs universal tripod adapter
- CS cleaning set
- VPA variable phone adapter + AR-B adapter ring for binoculars

## SOAP & BRUSH KIT

A soap & brush kit is supplied for cleaning the armoring on the housing. Close the covers on the eyepiece and objective lenses. Moisten the brush and apply the soap using circular movements to gently clean the housing. Then rinse the NL Pure with clear water and dry it carefully. Regular cleaning extends the life of the product.

# TECHNICAL DATA

NL PURE	8x42 W B	10x42 W B	12x42 W B
Magnification	8x	10x	12x
Effective objective lens diameter (mm)	42 mm	42 mm	42 mm
